4.1. The West Virginia Board of Education has the responsibility for establishing high quality standards pertaining to all educational standards pertaining to all education programs (W.Va. Code §18-9A-22). The content standards and objectives provide a focus for teachers to teach and students to learn those skills and competencies essential for future success in the workplace and further education. The document includes content standards for English Language Arts; an explanation of terms; objectives that reflect a rigorous and challenging curriculum; and performance descriptors.

Introduction

The Next Generation Content Standards and Objectives for English Language Arts in West Virginia Schools are aligned to the Common Core State Standards for English Language Arts & Literacy, the culmination of an extended, broad-based effort to fulfill the charge issued by the states to create the next generation of K-12 standards in order to help ensure that all students are college and career ready in literacy no later than the end of high school. The Common Core State Standards for English Language Arts & Literacy, the product of work led by the Council of Chief State School Officers (CCSSO) and the National Governors Association (NGA), builds on the foundation laid by the states in their decades-long work on crafting high-quality education standards. In May 2010, the West Virginia Board of Education adopted the Common Core State Standards for English Language Arts & Literacy; shortly thereafter, 85 classroom teachers and representatives of Higher Education faculty began a deep study of this work and placed the content of these Standards into the West Virginia Framework. This group of West Virginia educators found the standards to be research and evidence-based, aligned with college and work expectations, rigorous, and internationally benchmarked. A particular standard was included in the document only when the best available evidence indicated that its mastery was essential for college and career readiness in a twenty-first-century, globally competitive society.

As a natural outgrowth of meeting the charge to define college and career readiness, the Standards lay out a vision of what it means to be a literate person in the twenty-first century. The skills and understandings students are expected to demonstrate have wide applicability outside the classroom or workplace. Students who meet the Standards readily engage in the close, attentive reading that is at the heart of understanding and enjoying complex works of literature. They habitually use their critical reading skills as they sift through the staggering amount of information available today in print and digitally. They actively seek the thorough and thoughtful engagement with high-quality literary and informational texts that builds knowledge, enlarges experience, and broadens worldviews. They demonstrate the reasoning and use of evidence that is essential to both private deliberation and responsible citizenship in a democratic republic. In short, students who meet the Standards develop the skills in reading, writing, speaking, and listening that are the foundation for any creative and purposeful expression in language.

Explanation of Terms

Content Standards are broad statements that define the knowledge, skills and understanding that all students must demonstrate in a content area at the end of the kindergarten through college career readiness sequence of study.

Clusters are groups of the objectives that define the expectations students must demonstrate to be college and career ready.

Objectives are incremental steps toward accomplishment of content standards. Objectives are listed by grade level and are organized around the clusters and content standards. Objectives build across grade levels as students advance in their knowledge and skills.

Performance Descriptors describe in narrative format how students demonstrate achievement of the content standards. Line breaks within the narrative format indicate clusters of concepts and skills. West Virginia has designed five performance levels: distinguished, above mastery, mastery, partial mastery, and novice. Performance Descriptors serve two functions. Instructionally, they give teachers more information about the level of knowledge and skills students need to acquire. Performance levels and descriptors are also used to categorize and explain student performance on statewide assessment instruments.

Distinguished: A student at this level has demonstrated exemplary performance. The work shows a distinctive and sophisticated application of knowledge and skills that go beyond course or grade level applications.

Above Mastery: A student at this level has demonstrated effective performance and exceeds the standard. The work shows a thorough and effective application of knowledge and skills.

Mastery: A student at this level has demonstrated adequate knowledge and skills that meet the standard. The work is accurate, complete and fulfills all requirements. The work shows solid academic performance at the course or grade level.

Partial Mastery: A student at this level has demonstrated limited knowledge and skills toward meeting the standard. The work shows basic but inconsistent application of knowledge and skills characterized by errors and/or omissions. Performance needs further development.

Novice: A student at this level has demonstrated minimal fundamental knowledge and skills needed to meet the standard. Performance at this level is fragmented and/or incomplete and needs considerable development.

Numbering of Standards

The number for each standard is composed of three parts, each part separated by a period:

- the content area code is ELA for English Language Arts,
- the grade level, and
- the standard.

Numbering of Clusters

The numbering of clusters is composed of four parts, each part separated by a period:

Unique Electronic Numbers (UENs)

Unique Electronic Numbers (or UENs) are numbers that help to electronically identify, categorize and link, specific bits of information. Once Policy 2520.1A is available on the Web, each standard, each cluster, each objective and each group of five performance descriptors will have a Unique Electronic Number (UEN) that will always remain the same.

The codes printed in Policy 2520.1A form the basis of the UENs. The only additional set of numbers that will be added to each code to formulate its UEN will be a prefix that indicates the year and month that a particular version of Policy 2520.1A is approved by the State Board of Education.

The prefix for the UENs for each content area in Policy 2520.1A is noted at the top of each page containing standards, clusters, objectives and performance descriptors. As sections of Policy 2520.1A are revised, UENs will be changed to reflect the new approval date.

UENs (Unique Electronic Numbers) facilitate implementation of WV Standards into electronic formats such as databases and XML Files. The WV Department of Education encourages everyone who is going to use the Next Generation Content Standards for English Language Arts in any kind of electronic distribution, alignment, or software development to use the UENs so that all efforts can be cross-referenced and there is consistency across initiatives.

ENGLISH LANGUAGE ARTS – Policy 2520.1A

The English Language Arts content standards, objectives and performance descriptors were developed in four major strands: reading, writing, speaking and listening and language. Each strand provides a clear description of what the students in kindergarten through twelfth grade should know and be able to do. The curriculum through the grade levels is ordered to allow for foundational content and a scaffolding process to ensure a rigorous and challenging program of studies for all students. The content standards, objectives and performance descriptors defined herein will serve to ultimately promote a more literate West Virginia society.

The Common Core State Standards were referenced in the development of the Next Generation West Virginia Content Standards and Objectives. The Common Core is supported by the Council of Chief State School Officers and National Governors Association. The Common Core references include NAEP, ACT, SAT, and multiple other national research studies. Each reference was reviewed, and its relevance was determined in order to produce a more challenging curriculum for West Virginia students.

Considerations in the development of the English Language Arts K-12 curriculum included the rigor that is comparable to national and international language arts standards and successful performance on national and international language arts assessments. The curriculum progresses through the grade levels in a spiraling effect to ensure both a complete mastery of each strand and an opportunity to attain the distinguished level of performance. The English Language Arts program emphasized attention to content and global awareness. Crucial components of the curriculum involve use of literary and informational texts in language arts and across the curriculum disciplines as these skills are essential in comprehending all curricular areas.

One of the key requirements of the Next Generation West Virginia Content Standards and Objectives is that all students comprehend texts of steadily increasing complexity as they progress through school. Students must be able to read and comprehend independently and proficiently the kinds of complex texts commonly found in college and careers as well as in numerous life tasks. While reading demands in college, workforce training programs, and life in general have held steady or increased over the last half century, K–12 texts have actually declined in sophistication, and relatively little attention has been paid to students' ability to read complex texts independently. These conditions have left a serious gap between many high school seniors' reading ability and the reading requirements they will face after graduation. A turning away from complex texts is likely to lead to a general impoverishment of knowledge. To prevent an impoverishment of knowledge, students must read complex texts that offer them new language and new knowledge.

Distribution of Literary and Informational Passages by Grade in the 2009 NAEP Reading Framework

Distribution of Communicative Purposes by Grade in the 2011 NAEP Writing Framework

Grade	To Persuade	To Explain	To Convey Experience
4	30%	35%	35%
8	35%	35%	30%
12	40%	40%	20%

The four major content strands have defined objectives that explain what the student should know. The objectives move from the literal level of identifying and recognizing information to the more complex skills of analyzing and evaluating. The abbreviation, e.g., indicates examples for teaching the objectives. Furthermore, in the spiraling curriculum, the teacher is strongly encouraged to review the objectives of the previous grade level to serve as a starting point for review and maintenance as well as preview the next grade level to serve as a starting point for enrichment.

English Language Arts Content Standards K-12

Standard 1: Reading

The development of proficient reading skills is critical for mastering academic content, succeeding in school and fulfilling life's potential. Students must show a steadily growing ability to discern more from and fuller use of text, including making an increasing number of connections among ideas and between texts, considering a wider range of textual evidence and becoming more sensitive to inconsistencies, ambiguities, and poor reasoning in text. In order to build the foundational skills of reading, students will master the essential components of reading: phonemic awareness, phonics, background knowledge/vocabulary, high frequency words/fluency, comprehension and written application. Students will gain adequate exposure to a range of texts and tasks. Rigor is also infused through the requirement that students read increasingly complex texts through the grades. Students advancing through the grades are expected to meet each year's grade-specific standards and retain or further develop skills and understandings mastered in preceding grades.

College and Career Readiness Anchor Standards for Reading

The grades K-12 standards on the following pages define what students should understand and be able to do by the end of each grade. They correspond to the College and Career Readiness (CCR) anchor standards below by Cluster. The CCR and grade-specific standards are necessary complements—the former providing broad standards, the latter providing additional specificity—that together define the skills and understandings that all students must demonstrate.

Key Ideas and Details

1. Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
2. Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
3. Analyze how and why individuals, events, and ideas develop and interact over the course of a text.

Craft and Structure

4. Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings, and analyze how specific word choices shape meaning or tone.
5. Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.
6. Assess how point of view or purpose shapes the content and style of a text.

Integration of Knowledge and Ideas

7. Integrate and evaluate content presented in diverse media and formats, including visually and quantitatively, as well as in words.
8. Delineate and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence.
9. Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches the authors take.

Range of Reading and Level of Text Complexity

10. Read and comprehend complex literary and informational texts independently and proficiently.

Standard 2: Writing

Students will apply writing skills and strategies to communicate effectively for different purposes using specific writing types. They will use the writing process by appropriately applying the organization of ideas, development of main ideas and supporting details, varied sentence structure, word choice and mechanics. Using a variety of literary and informational texts, print sources and media sources, students will select, organize and evaluate for research purposes.

College and Career Readiness Anchor Standards for Writing

The K-12 standards on the following pages define what students should understand and be able to do by the end of each grade. They correspond to the College and Career (CCR) anchor standards below by cluster. The CCR and grade-specific standards are necessary complements – the former providing broad standards, the latter providing additional specificity – that together define the skills and understandings that all students must demonstrate.

Text Types and Purposes (These broad types of writing include many subgenres.)

1. Write arguments to support claims in an analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence.
2. Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
3. Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.

Production and Distribution of Writing

4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
5. Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
6. Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.

Research to Build and Present Knowledge

7. Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.
8. Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.
9. Draw evidence from literary or informational texts to support analysis, reflection, and research

Range of Writing

10. Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

Standard 3: Speaking and Listening

Students will be required to communicate ideas clearly and efficiently, including but not limited to formal presentations. They will need to use oral communication and interpersonal skills as they work together. They will need to be able to express and listen carefully to ideas, integrate information from oral, visual, quantitative and media sources, evaluate what they hear, use media and visual displays strategically to help achieve communicative purposes, and adapt speech to context and task.

College and Career Readiness Anchor Standards for Speaking and Listening

The K-12 standards on the following pages define what students should understand and be able to do by the end of each grade. They correspond to the College and Career Readiness (CCR) anchor standards below by cluster. The CCR and grade-specific standards are necessary complements – the former providing broad standards, the latter providing additional specificity – that together define the skills and understandings that all students must demonstrate.

Comprehension and Collaboration

1. Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.
2. Integrate and evaluate information presented in diverse media and formats, including visually, quantitatively, and orally.
3. Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric.

Presentation of Knowledge and Ideas

4. Present information, findings, and supporting evidence such that listeners can follow the line of reasoning and the organization, development, and style are appropriate to task, purpose, and audience.
5. Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.
6. Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.

Standard 4: Language

Students will learn and apply the standard rules of written and spoken English while approaching language as a matter of craft and informed choice among alternatives to communicate. Students will understand words and phrases, their relationships, and their nuances and acquire new vocabulary, particularly general academic and domain-specific words and phrases.

College and Career Readiness Anchor Standards for Language

The K-12 standards on the following pages define what students should understand and be able to do by the end of each grade. They correspond to the College and Career Readiness (CCR) anchor standards below by cluster. The CCR and grade-specific standards are necessary complements – the former providing broad standards, the latter providing additional specificity – that together define the skills and understandings that all students must demonstrate.

Conventions of Standard English

7. Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.
8. Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

Knowledge of Language

9. Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

Vocabulary Acquisition and Use

10. Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.

English Language Arts – Kindergarten

English Language Arts for the kindergarten student involves an immersion in a literacy-rich environment to develop an awareness and understanding of spoken and written language. Through active participation and developmentally appropriate and engaging learning experiences, students develop competencies in reading, writing, listening, speaking and media literacy. To support the development of lifelong learning and global awareness, students utilize language experiences, 21st century skills and equally utilize literary and informational texts of appropriate complexity. The West Virginia Standards for 21st Century Learning include the Next Generation West Virginia Content Standards and Objectives as well as the 21st Century Learning Skills and Technology Tools. All West Virginia teachers are responsible for classroom instruction that integrates content standards and objectives, learning skills and technology tools.

English Language Arts – Grade 2

English Language Arts second grade students will continue to be immersed in a literacy-rich environment to encourage exploration of various literature and informational texts that are of appropriate complexity. They will apply skills of reading, writing, listening, speaking and media literacy across the curriculum. Students read with comprehension, communicate effectively, develop both literal and critical thinking skills and access information from various media forms. Second graders will develop from dependent to independent readers and will begin to make their own choices for recreational and informative reading. Active participation in meaningful experiences and developmentally appropriate and engaging environments will increase the student’s ability to analyze and evaluate information and develop lifelong learning and global awareness. The West Virginia Standards for 21st Century Learning include the Next Generation West Virginia Content Standards and Objectives and 21st Century Learning Skills and Technology Tools. All West Virginia teachers are responsible for classroom instruction that integrates content standards and objectives, learning skills and technology tools.

English Language Arts third grade students learn, practice and apply strategies, which enable them to become literate, independent and self-directed learners. Students engage in rich and integrated literacy experiences embedded in meaningful context and developmentally appropriate practices; they respond to literary and informational texts of appropriate complexity using literal and critical comprehension skills as well as communication and media skills with increased emphasis on informational text and writing informative/explanatory and opinion pieces. Through inquiry and collaboration, these learners will expand their ability to analyze and evaluate information and develop as critical thinkers, taking responsibility for their own learning and connecting new information to existing knowledge then sharing this with various audiences. Students will interact with and respond to text in purposeful situations across the curriculum, create and access information in a variety of forms and media and expand 21st century skills. The West Virginia Standards for 21st Century Learning include the Next Generation West Virginia Content Standards and Objectives and 21st Century Learning Skills and Technology Tools. English Language Arts – Grade 5

English Language Arts fifth grade students expand and strengthen knowledge and skills learned in earlier grades in a literacy-rich environment that integrates reading, writing, speaking and listening and language in engaging and authentic experiences. Students apply comprehension, writing and vocabulary skills and strategies, which will enable them to critically judge literary and informational texts across the curriculum, with increased emphasis on informational texts. Fifth grade students continue to read literary and informational texts of appropriate complexity. They strengthen and expand their research and writing skills using the writing process and conventions of language within and across the curriculum with increased emphasis on writing and sharing information, explaining and giving opinions. Integration of reading, writing, listening, speaking and media literacy instruction prepare fifth grade 21st century learners as they access information to contribute, deliver and exhibit. Fifth grade students continue to develop as independent, self-directed critical thinkers and life-long learners through participating in inquiry based, self-directed learning experiences. The West Virginia Standards for 21st Century Learning include the Next Generation West Virginia Content Standards and Objectives and 21st Century Learning Skills and Technology Tools. All West Virginia teachers are responsible for classroom instruction that integrates content standards and objectives, learning skills and technology tools.

English Language Arts – Grade 9

English Language Arts ninth grade students continue to develop in literacy-rich environments as independent motivated readers and writers who think critically and take responsibility for their learning. They integrate and apply reading, writing, speaking, listening and the conventions of language across curriculums. They actively participate in inquiry based, student driven, engaging endeavors and collaborative learning situations to facilitate motivation and the foundation for lifelong learning. Frequent collaboration with peers and adults and analysis of a broad array of quality literary and informational texts of appropriate complexity, with increasing emphasis on informational text, create independent and proficient readers and communicators with an understanding of widely divergent cultures and experiences. Students use the writing process and the conventions of language to integrate information into text selectively to maintain the flow of ideas and avoid plagiarism by using standard citation. With increasing emphasis on informative/explanatory and argumentative writing and speaking, students conduct short as well as more sustained research projects to solve a problem and explore multiple avenues to support a research topic, analysis and/or reflection. They assess the authority and synthesize multiple print and digital sources. Ninth grade 21st Century learners critique oral and visual information and apply the information to global situations. The 21st Century student will employ technology best suited to audience, task, purpose and discipline. The West Virginia Standards for 21st Century Learning include the Next Generation West Virginia Content Standards and Objectives and 21st Century Learning Skills and Technology Tools. All West Virginia teachers are responsible for classroom instruction that integrates content standards and objectives, learning skills and technology tools.

English Language Arts – Grade 10

English Language Arts tenth grade students become more adept at making connections and transferring knowledge to new situations through research and writing in literacy-rich environments. They continue to develop as independent motivated readers and writers who analyze impact of and take responsibility for their learning. They analyze, defend and support views using reading, writing, speaking, listening and the conventions of language across curriculums. They collaboratively participate in inquiry based, student driven, engaging endeavors that facilitate motivation and the foundation for lifelong learning. Thorough analysis of a broad array of quality literary and informational texts of appropriate complexity, with increasing emphasis on informational text, creates independent and proficient readers and communicators who appropriately initiate and discuss issues with widely divergent cultures. Students use technology to strengthen writing and use the writing process and the conventions of language to compose logical arguments and explanations with proper tone and form one or more points of view and present information and findings with clear and distinct perspective and style. They conduct short as well as more sustained research projects to solve a problem and explore multiple avenues to support a research topic, analysis and/or reflection. They avoid plagiarism, assess the authority and synthesize multiple print and digital sources in terms of task, purpose and audience. Ninth grade 21st Century learners critique oral and visual information and apply the information to global situations. The 21st Century student will employ technology best suited to audience, task, purpose and discipline. The West Virginia Standards for 21st Century Learning include the Next Generation West Virginia Content Standards and Objectives and 21st Century Learning Skills and Technology Tools. All West Virginia teachers are responsible for classroom instruction that integrates content standards and objectives, learning skills and technology tools.

English Language Arts – Grade 11

English Language Arts eleventh grade students become adept at making connections and transferring knowledge to new situations through research and writing in literacy-rich environments. They set deadlines and are independent, motivated readers and writers who analyze impact of and take responsibility for their learning. They focus on reading, writing, speaking, listening and the conventions of language across curriculums in educational endeavors and collaborative learning situations including analyzing and defending the representation of text in different artistic mediums and how authors draw on and transform source material. They initiate and collaboratively participate in inquiry based, student driven, engaging endeavors that facilitate motivation and the foundation for lifelong learning. Complex analysis of a broad array of quality literary and informational texts of appropriate complexity, with increasing emphasis on informational text, creates independent and proficient readers and communicators who appropriately analyze and discuss the effects of cultural experiences with diverse audiences. They initiate and participate in collaborative discussions, stimulate thoughtful exchange of ideas and evaluate speaker’s reasoning, tone and emphasis. They qualify or justify their own views and make new connections based on evidence and sound reasoning. Students use technology to strengthen and try new approaches to writing with increased emphasis on informational/explanatory and argumentative writing. They use the writing process and the conventions of language to compose logical arguments and explanations that establish significance using techniques such as metaphor, simile and analogy. They conduct short as well as more sustained research projects to solve a problem, assess the strength and limitations of sources, synthesize multiple print and digital sources avoiding overreliance on any one source and use standard citation to avoid plagiarism. The 21st Century student will employ technology best suited to audience, task, purpose and discipline. Through academic rigor and relevance, the ability to analyze, speak and write logically will become the primary focus. The inclusion of higher order thinking skills, communication skills, independent and creative thinking will be used to enable students to effectively build content knowledge. The West Virginia Standards for 21st Century Learning include the Next Generation West Virginia Content Standards and Objectives and 21st Century Learning Skills and Technology Tools. All West Virginia teachers are responsible for classroom instruction that integrates content standards and objectives, learning skills and technology tools.

English Language Arts – Grade 12

English Language Arts twelfth grade students are College and Career Ready. They make connections, transfer knowledge to new situations through research and writing, and understand the value of literacy-rich environments. They set clear goals, deadlines and individual roles to promote civil, democratic discussions that probe reasoning, evidence and divergent and creative thinking. They use research to make informed decisions and solve problems independently. They analyze and articulate the value of and take responsibility for their learning. They focus on reading, writing, speaking, listening and the conventions of language across curriculums in educational endeavors and collaborative learning situations including complex, critical analysis and evaluation of how texts and ideas interact as well as how and why author’s craft impacts the quality and aesthetic value of texts . They initiate and facilitate inquiry based, engaging endeavors and understand that this is the foundation for lifelong learning. Complex analysis of a broad array of quality literary and informational texts of appropriate complexity, with increasing emphasis on informational text, creates independent and proficient readers and communicators who convey a clear and distinct perspective and address alternative or opposing perspectives with diverse audiences. Students use technology to develop and strengthen writing in response to ongoing feedback, including new arguments or information and recognize the benefit of the sustained writing process. With increased emphasis on informational/explanatory and argumentative writing, they use the writing process and the conventions of language to compose logical arguments and explanations using rhetorical devices, varied syntax and relevant evidence anticipating the audience’s values and biases. Through academic rigor and relevance, the ability to evaluate, speak and write logically, clearly and distinctly are evident. They effectively evaluate and use multiple sources following standard format for citation in sustained research projects that include the premises, purposes and arguments in works of public advocacy. The 21st Century student adeptly employs technology best suited to audience, task, purpose and discipline. Using higher order thinking skills, communication skills and independent and creative thinking, students effectively build content knowledge. The Next Generation West Virginia Content Standards and Objectives work in tandem with the College and Career Readiness (CCR) anchor standards for the graduating twelfth grade student. The grade-specific standards are necessary complements—the former providing broad standards, the latter providing additional specificity—that together define the skills and understandings that all students must demonstrate. The West Virginia Standards for 21st Century Learning include the Next Generation West Virginia Content Standards and Objectives and 21st Century Learning Skills and Technology Tools. All West Virginia teachers are responsible for classroom instruction that integrates content standards and objectives, learning skills and technology tools.
